A series of multi-disciplinary
virtual regional meetings

13 October - 15 December 2020
5.00 - 6.15pm on all dates

Construction Declares in conjunction with
Architects Declare invites you to a series
of multi-disciplinary meetings around the
UK, held on zoom, open to all.

Engineers, Landscape Architects,
Contractors and Project Managers have
all declared, and we need others to join
us. All built environment professionals
must be part of these discussions for real
change to take place, so please pass on
details of this event to others in the area.

All meetings will include an
introduction by a member of the
UK Architects Declare steering group
and a discussion led by regional
Construction Declares volunteers.
